Professional Summary

My goal as a Front-End Developer is to build excellent web application, continually learn and progress to a senior developer role. Eager to contribute as a Front-End Developer by building responsive, high-performance user interfaces using modern JavaScript frameworks as React.js and Next.js, along with hands-on experience in WordPress development (theme customization, Elementor, and WooCommerce). Seeking to join a dynamic team to contribute to innovative projects and further develop my technical and soft skills.

Technical Skills

Languages: HTML, CSS, JavaScript, PHP, C

Frameworks & Libraries: React.js, Next.js, TypeScript

Styling & UI: Tailwind CSS

WordPress & CMS: WordPress, Theme Customization, Elementor, WooCommerce

Database: MySQL, MongoDB (Basic)

Version Control: Git, GitHub

Design & UI Tools: Figma, AdobeXD

Soft Skills: Communication, Teamwork, Adaptability, Creativity, Team Leadership, Critical Thinking

Professional Experience

Front - End- Developer – Multipurc Tech | *Remote* | Jan 2025 – Nov 2025

- Developed and launched custom, responsive websites using HTML, CSS, JavaScript, and modern frameworks.
- Collaborated with design and backend teams to implement UI features.
- Optimized website performance and debugged front-end issues.
- Worked on WordPress-based websites including customization and content updates.

Projects

- **E-Shop-ReactJs** [Repository](#)
 - Developed a responsive, component-based e-commerce web application using React.js with seamless product browsing, cart management, and optimized user experience.
- **FormationForge-Js** [Repository](#)
 - Created a lightweight, client-side JavaScript web application combining HTML, CSS and JS to deliver a responsive and functional interface, demonstrating core UI design, DOM manipulation and basic front-end logic.
- **Diu-Student-Portal** [Repository](#)
 - Built a full-stack School Management System (SMS) using PHP, Bootstrap and MySQL to manage data for students, teachers, and administrative staff.
- **Travello** [Repository](#)
 - Developed a multi-page, responsive Travel Agency website frontend using HTML and CSS, TailWindCSS to showcase various destinations and booking functionalities.
- **WordPress Business Website**
 - Designed and customized a professional WordPress website using Elementor.
 - Integrated WooCommerce and optimized site speed and responsiveness.
